Bangalore

PERSONAL PROJECTS

–**Food Blog**
uploading and commenting the food based on your ethnic tastes

   ∗ Tools & technologies used: pug,css,javascript,mongodb
   ∗ Even the pro food bloggers struggle to serve delicious, relevant content on their food blogs.This project comes with ease and get to know what food surrounds us

–**Walking Robot**
Commands(using what we can perform with help of robot)

   ∗ Tools & technologies used: CG,C programmming
   ∗ Software Project with ease,made an walking robot used basic commands with helpful reactive orders from users.I would like to implement further with some intense commands and make some effective use of benefitting users
